Infrastructure Improvements to begin at Mooresville Campus

Beginning June 17, 2019, infrastructure improvements will begin at Franciscan Health Mooresville to modernize and improve several systems throughout the hospital campus. The construction work will affect access to some key entrances and roads on the campus, specifically around the Professional Center (entrance 7) and the Women's Center (entrance 5).

Patients, visitors and employees who need to reach these entrances should plan to use Hadley Road and take it east to Johnson Road, in order to access the Green Parking Lot for the Professional Center.

Perimeter Road will be closed near the Yellow Lot at the Women's Center. Construction signage will be posted to help navigate the restrictions.

Areas that will not be affected include the Red Parking Lot at the hospital's main entrance, the Orange Parking Lot for the Center for Hip & Knee Surgery, and the Blue Parking Lot for the Medical Pavilion.

After the infrastructure is complete, phase 2 will begin which includes relocation of medical practices in the Women's Center and the Professional Center; demolition of the existing Women's Center lobby and reconstruction of a new two-story medical office building in its place.

Medical practices and service locations that are affected by the road restrictions and parking closures through fall 2019 include:

- Franciscan Physician Network After-Hours Clinic
- Franciscan Physician Network Access Clinic
- Franciscan Physician Network Breast & Melanoma Specialists
- Franciscan Physician Network Diabetes & Endocrinology Specialists
