

# CARE OPTIONS AFTER HOSPITALIZATION CENTRAL INDIANA

# SKILLED NURSING FACILITIES

CENTRAL  
INDIANA

When a family member or loved one requires skilled care after an inpatient hospital stay, it is important to know all of your options so that an educated and informed decision can be made. As your healthcare partner, a Franciscan Health team member is available to assist you and your family in making decisions about service providers that are appropriate for your next level of care.

There are some steps you or your caregivers can take as well. Take time to visit facilities and ask questions to learn everything it has to offer. When visiting the facilities verify all information you were told over the phone and trust your instinct. First impressions matter.

- **What types of care do they offer?**

---

- **Is the facility certified by Medicaid and Medicare?**

---

- **What is the Medicare Overall Rating of the facility?**

---

- **What is the Medicare readmission rate?**

Use the information from site visits along with the quality of care information from **Medicare.gov** to help you compare the facilities you're interested in.

## FRANCISCAN POST-ACUTE CARE CONTINUING CARE NETWORK (PAC-CCN)

The skilled nursing facilities listed below are part of the Post-Acute Care Continuing Care Network (PAC-CCN). The skilled nursing facilities in the PAC-CCN work with Franciscan Health and are dedicated to the same goals: better quality care, reduced cost and higher patient satisfaction.

Medicare patients are not required to select a facility or agency participating in the Franciscan Post-Acute Care Continuing Care Network. They are merely offered as a suggestion for your consideration, as we work closely with these facilities to achieve the highest-quality care for our patients.

 = PAC-CCN Skilled Nursing Facilities

Always check with your insurance provider to verify coverage of benefits for your post-acute needs.  
Above information verified on [www.medicare.gov](http://www.medicare.gov), May 28, 2025. Network membership subject to change.

**NOTES:** \_\_\_\_\_

# SKILLED NURSING FACILITIES

## CENTRAL INDIANA

Facilities listed within this document participate in Medicare and are available to provide services for you in this geographic region. If you intend to reside in a different area, please request a list of facilities in that geographic region. In addition, if you are enrolled with a managed care organization, please contact them to confirm which providers or facilities are in your plan. Franciscan Health provides this list to help you make this important health care decision, but is not specifically endorsing or limiting your decision to any of them. You have the freedom to choose your facility.

Federal law requires Franciscan Health to tell you whether it and the listed facilities have a financial interest. If Franciscan Health has a financial interest in any of the facilities, or if any of the facilities have a financial interest in Franciscan, the facility's name(s) are listed in **bold type**.

A care manager may identify you as a Franciscan ACO patient as they discuss your post-acute care options. For more information about our Post-Acute Care Continuing Care Network, please let your nurse or provider know that you would like to speak with Care Management.

Please call the Franciscan ACO Medicare beneficiary call center toll-free at 1 (855) 268-9086, to find out more about the benefits of participating in an ACO.

Franciscan ACO cannot choose which patients are attributed to this program. However, you are more likely to be included if your primary care provider is in the ACO and you are enrolled in Medicare parts A and B.

Please visit [medicare.gov](https://www.medicare.gov) or call 1-800-MEDICARE (1-800-633-4227) for general questions or additional information about Accountable Care Organizations. TTY users should call 1-877-486-2048.

**Q: Why should I choose a Post-Acute Care Continuing Care Network (PAC-CCN) facility or agency for after-hospital care?**

**A:** We recognize and respect patient choice. If you require care after a hospital stay, you can choose any facility or agency you wish. Patients and their families often look to us to provide information regarding options we believe are in their best interest. We work closely with the facilities and agencies in the PAC-CCN. These facilities and agencies are dedicated to the same goals we are: better quality care, reduced cost and higher patient satisfaction.

**Q: What criteria were used to evaluate the PAC-CCN participating facilities and agencies?**

**A:** Participants were chosen after a rigorous review process that considered their historical quality performance results. Participating facilities and agencies are required to demonstrate ongoing quality and performance through regular reporting to our ACO.

**Q: What is the Medicare Overall Rating and why is it important?**

**A:** A rating of 1 to 5 stars is the combined overall rating based on the health inspection, staffing and quality measures as reported by Medicare. The more stars the better. This rating is important because it gives you an accurate “snap shot” of the care provided by individual skilled nursing facilities and can help you decide which facility best fits your needs for care.

**Q: What other information about a facility reported by Medicare is important to assess?**

**A:** Skilled nursing facilities help residents recuperate after a hospital stay and avoid going back to the hospital. Sometimes it's necessary for a patient to return to the hospital. However, if a skilled nursing facility sends many patients back to the hospital, it may indicate the facility isn't properly assessing or taking care of its patients. The lower the readmission percentage rates, the better.

**Q. How long will Medicare, Medigap or Medicare Advantage plan pay for a stay in a skilled nursing facility?**

**A:** The number of days covered by your plan depends on how long your medical needs require skilled nursing care. Check with your specific plan regarding coverage and speak with the staff of the skilled nursing facility.

We encourage you to use this information when selecting post-acute care. This information can help you compare skilled nursing facilities by important topics and help you think of questions to ask when you visit the skilled nursing facilities. For more information about the Medicare Overall Rating and Readmission Rates, please visit: [Medicare.gov](https://www.Medicare.gov).
